

## Gifts extension installation guide

After purchase you will get link to download extension.

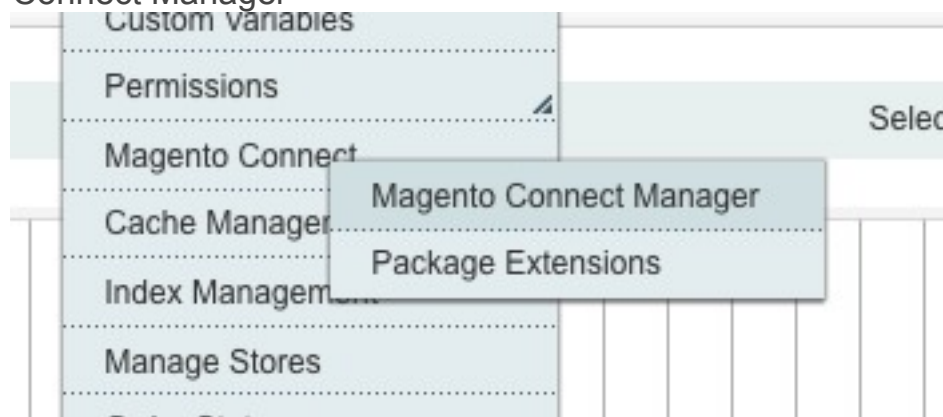

All our extensions packaged as a proper Magento Extension Package. So installation process is the same as for other extensions.

### Install extension using SSH or terminal/command line:

1. Move/Upload the [extension].tar.gz file to your Magento application root.
2. If you haven't done so already, run the following command from the root of your application: './pear mage-setup .'
3. Run: './pear install extension-name.tar.gz' where extension-name is the name of the extension file.

### Install extension using Magento Connect Manager (for magento v1.5.x):

1. Log in to your admin panel, then go to System->Magento Connect->Magento Connect Manager

2. Use 'Direct package file upload' section to install extension.

### Copy/paste method (manually installation):

1. Extract extension archive.
2. Copy files to your magento folder:

## After installation

1. Refresh all caches
2. If you use **flat structure** for products:

2.1.Go to backend-> attributes, edit *giftvalue* attribute, set:

- Used in Product Listing: Yes*

- Use in Promo Conditions: Yes*

3.Refresh all indexes (under Index Managment) and caches
